

EZ Wheel

The EZ Wheel is designed to minimize back strain caused from tipping, pushing, and moving 2-wheel containers.

▼ About The EZ Wheel

Retrofit your 2-wheel carts with the EZ Wheel. A removable and portable accessory, the EZ Wheel is an ergonomically safe way to move your fully-loaded containers. Fits most 65- and 95-gallon carts.

The EZ Wheel works well in tight spaces, doorways, and easily turns corners. Great for heavy contents such as paper, the EZ Wheel makes collecting shredded documents and trash more effortless than ever.

▼ Features

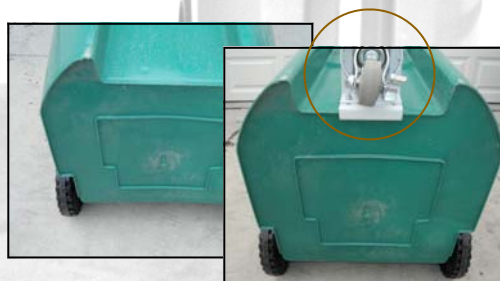

- Universal design fits conveniently on all Otto carts, as well as other brand carts
- Designed for carts installed with a metal or plastic lift bar
- Easily removable and portable
- Provides ergonomic support to cart handler
- Adds an additional wheel, making maneuvering easier
- Brake gives added stability when cart is unattended

▼ How It Works

1 Assemble EZ Wheel Components—Using Appropriate Plate For Cart Type

2 Attach EZ Wheel To Bottom Of Container

3 Pull EZ Wheel Handle Up To Reach Over Lift Bar
