

Fiskars® Rain Barrel Systems

FISKARS®

▼ Fiskars® Rain Barrel System Provides Efficient Water Runoff Collection

- Reduces eco footprint
- Great for use during drought seasons or water restrictions
- Downspout diverter kit channels rainwater from the downspout into rain barrel; eliminates overflow by rechanneling rainwater back down downspout
- Collects rainwater that is naturally free of chlorine and salts
- Decorative styles blend well with exterior home finishes and landscapes
- Designed to fit close against structure
- Safety snap-on cover
- Made of 100% recyclable UV-treated, impact-resistant propyethylene
- Limited 3-year warranty
- Rain barrels made in U.S.A.

Fiskars® Rain Barrel Systems

▼ Features

UV protection for durability and to prevent weathering

Integrated base provides clearance for filling watering cans

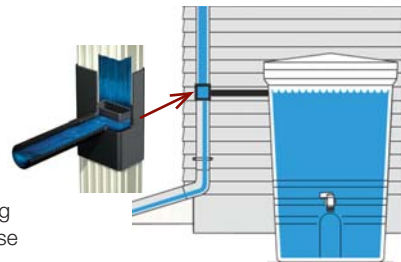

Decorative styling
Safety snap-on lid

Drill points located on both sides of barrel for easy drilling during diverter assembly

▼ Downspout Diverter Kit

How It Works

The worry-free downspout diverter channels water from the downspout to the barrel. Once the barrel is full, the diverter will bypass the water down the remainder of the downspout, eliminating overflow and protecting house foundation.

- Diverter Kit fits all standard sized downspouts. Kit includes 2 diverters (2" X 3" & 3" X 4"), connector hose, connector and installation guide
- Made of high-density, impact-resistant polypropylene

▼ Threaded Spigot

- Fast-flow spigot included with every rain barrel
- Easily installs from the outside of barrel
- Threaded spigot allows for hose connection
- Ample clearance for filling watering cans
- Colored touch points for easy ON and OFF
- Made of high-density, impact-resistant polypropylene

▼ Optional Rain Barrel Connector Kit

Link multiple rain barrels to collect more water from roof with connector kit.

- Kit includes 2 connectors and 0.5 meter hose
- 1" square drill bit needed to drill holes in rain barrel
- Bilingual installation instructions available at www.rainwater.fiskars.com

▼ Available Styles

- All Fiskars® Rain Barrel Systems include: Rain barrel, barrel lid, threaded spigot, diverter kit, connector hose, connector, and step-by-step installation guide. Barrels made in U.S.A.

- For more information, including installation video and FAQs, visit www.rain-barrel.com
- Note: Hacksaw, drill and 1" (25mm) diameter spade drill bit needed for installation

SALSA

- 58 gallon, roto molded
- Spice Granite color features decorative, polished bands that accent the rough surface
- Flat back fits snug against house

TUSCANY

- 57 gallon, roto molded
- Spice Granite color and textured surface mimics pottery
- Concave back fits snug to house

HOLDEN

- 48 gallon, injection molded
- Neutral Khaki color, wave-like forms for an organic look to blend outdoors
- Oval shape fits well in any area
