

Momentum Options

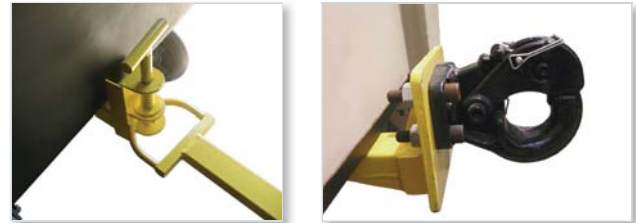

▼ Many different options are available for Momentum Containers. For additional options not listed, please consult with your Area Manager.

▼ Galvanized Steel Hardware

- 100% galvanized steel throughout container for maximum rust resistance. Available for all Momentum sizes
- Ideal for beaches, waterfront communities, restaurants and humid climates
- This container is a great option for ergonomic mobility as it is 30% lighter than steel
- Momentums are dent resistant, easy to clean, and never need painting, making them low maintenance

▼ Trainable System/Tow Kit

Spring-Loaded Hitch

Pintel Hook

Underside Support Bar

- The Trainable System incorporates a support bar on the underside of the container. This bar bears the weight during towing, minimizing stress to the container body
- Trainable bar connects to spring-loaded hitch, securely attaching containers for smooth towing
- Trainable kit is available for the 2 YD Compactor and 2, 3 and 4 YD Front Load containers

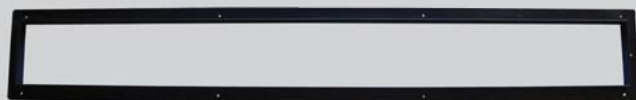

▼ Sliding Doors And Slots
