

Transformer

Transformer

Residential Containers Made With Recycled Plastic

- Available in 95, 65, and 18 gallons
- Environmentally friendly—made of up to 98% recycled plastic
- Prevents unnecessary landfilling
- Available in black and dark shades of gray, blue, and green
- Durable “double-pinned” lid attachment
- Lift lip across front and around front corners increases opening convenience
- Integrally molded details reinforce lift points and stress areas to accommodate heavy loads

Features

- Molded recess at bottom allows foot to be placed directly on axle providing leverage for maneuvering heavy loads
- Available with metal lift bar option
- Wear strips at bottom of container provide protection against abrasive use
- Zinc-plated hardware protects against rust and corrosion

Available Colors

Transformer containers are available in 4 standard colors. Priority is given to matching lid color, however black lids may be substituted based on availability.

Black - 60 Dark Gray - 50 Dark Blue - 68 Forest Green - 65

Colors as shown in this document may differ slightly from the actual product.

Customer Testimony

“All we use are regrind carts. I can't tell the difference between this cart and a regular cart and it saves me money.

— Don Lewis with Ken's Trash

“I have used the Transformer for 4-1/2 years. Initially I did so because of the price. After finding out how good these carts are and how well they hold up, why pay more?

— Rob Scott with Coastal Waste
