# Container Management

## A Seamless Extension Of Your Business

Otto Container Management (OCM) provides tailored solutions to all of your container activity needs, regardless of container manufacturer.

### Route Audits

#### Putting money back in your pocket.

Audits can be designed to fit your specific needs and capture the information that is critical to optimizing your profit margin.

Example Audit Options:

- Confirm container size and/or quantity
- Identify non-paying residents or businesses that currently receive services through list analysis
- Confirm customers with extra garbage and/or overfilled containers
- Report on container condition including safety hazards

### Inventory Management

#### Overseeing your containers as they move through your inventory.

- Maintain an organized yard with proper stock levels
- Establish yard organization: finished goods, components, and containers that may be eligible for warranty, repairs, or reclaim
- Keep accurate record of all items and overall inventory levels
- Receive regular inventory reporting tailored to your specific requirements
- Salvage old and broken containers

### Container Evaluations

#### Assessing your damaged containers.

- Evaluating containers, regardless of manufacturer
- Identify containers that may be eligible for warranty, repairs, or reclaim
- Detecting training opportunities for operator behavior to reduce container damage

## Container Logistics & Maintenance

**Taking your containers where they need to go. Extending the life of your container.**

- Container delivery for new customers or replacement of missing containers
- Container removal for canceled or non-paying customers
- Container swap-outs for broken containers or change in container size/waste stream
- Curbside container repairs including lid, wheel, axle, lift bar as well as container replacements
- Container washing
- Container welding

## Assembly, Distribution & Recovery

**Managing the details so you can meet your start date.**

- Extensive project preparation to drive successful implementation
- Utilization of our Project Management Workbook ensures that the right questions are asked and answered and each project component is tracked
- Experienced project management
- Technology solutions to link any combination of container data including RFID tag, barcode, serial number and address
- Installation of RFID tags on existing container fleets

## Container Re-branding

**Quickly giving your containers a new identity.**

- Decal application for acquired containers/re-branding efforts
- Options for assessing container condition and size
- Execution available curbside, at resident/business location, or at your local facility

# Container Management
