# Medical Waste Containers

## Protect Your Hazardous Materials

- Reusable and disposable containers intended for hazardous waste
- Reusable containers available in 200, 95, 38, 28, and 18 gallon sizes; disposable containers available in 60, 50, and 30 liter sizes
- Made of high density polyethylene with 94 HB rating
- 200 gallon reusable container has available 5" x 2" non-marking, heavy-duty fixed or swivel casters
- 38, 28, and 18 gallon reusable containers have upper and lower handles for manual handling
- Hermetic seal contains waste on sharps containers

### Reusable Containers

- Reusable containers are resistant to leaks and punctures
- Labeled with required OSHA and DOT text
- Front and sidewalls are specially reinforced to support heavy waste
- Custom hot stamping available for program-specific requirements, government regulation, or logo
- OSHA, FDA, and DOT tested

### Sharps Containers

- Stacking up to a maximum of three meters with full truck load
- Maximum filling level indicator on each container
- Peripheral adhesive on lid surround creates hermetic seal
- Large lateral handles are ergonomic and facilitate transport
- Solidity and shock resistance to both high and low temperatures
- No emission of harmful gasses during the incineration process
- DOT-PGII approved

### Sharps Lid Features

- Lid can be hung off the back side of container for full or 3/4 open position
- Temporary closure allows safe usage and prevents gas and odor release
- Singular or dual lid opening options:
  - Singular lid can be opened and closed while in use; container is leak proof once container is locked
  - Dual lid provides versatility with porthole lid-in-lid; both lid and porthole opening have adhesive for maximum protection and is lockable
